## CAPABILITY STATEMENT

Since its founding in 1987, Gateway Roofing, L.L.C. has successfully completed nearly \$65 million in safe and high-quality roofing projects across the Greater St. Louis area. As a union contractor, we take pride in employing skilled local labor, investing in workforce development, and giving back to our community through sweat equity and social responsibility.

We specialize in providing comprehensive roofing solutions for industrial, commercial, and residential properties. Gateway Roofing uses only premium materials sourced from trusted manufacturers such as Duro-Last, Johns Manville, GenFlex, GAF, Tremco, Garland, Mule-Hide, and Sarnafil.

## CORE SERVICES

- Roof installation, replacement, and recovery
- Preventive maintenance and repairs
- Thermal scans and detailed consultations
- Roof condition assessments and lifecycle planning
- Emergency leak response and service calls

## DIFFERENTIATOR

Gateway Roofing, L.L.C. is proud of its strong safety record, employing exclusively union labor and adhering strictly to all relevant safety laws and regulations. With a 35-year history of 100% contract completion, Gateway Roofing demonstrates an unwavering commitment to client satisfaction. The company upholds fiscal responsibility with suppliers to ensure prompt material delivery, and partners only with top-tier manufacturers to guarantee that every project is completed with the highest quality materials—done right the first time, every time.
